

Exploration Manager Appointment & Director Resignation

Globe Metals & Mining Limited (“**Globe**” or “**the Company**”; ASX: GBE) is pleased to advise that Mr. Fergus Jockel has been appointed as Globe’s Exploration Manager.

Fergus graduated in geology in 1978 from Victoria University of Wellington (NZ) and has since gained over 30 years’ experience in mineral exploration and resource development. He has been involved in a wide variety of commodities, including gold, base metals, rare earths, uranium, coal, nickel, phosphate and magnesite, in an extensive number of geological environments. Whilst working in Australia he was involved in several gold discoveries in the Eastern and Murchison Goldfields in Western Australia, the Scuddles Cu-Zn-Ag deposit and the Maroochydore copper deposit.

Since the mid-90s he has worked mainly overseas, including Indonesia, South Africa, Zambia, Mozambique, Tanzania and Madagascar in varying capacities such as exploration manager, country manager, and resource development manager as well as a consultant. During his time in these countries he has been associated with all aspects of developing base metal, uranium, coal and gold resources, including starting up exploration companies and government liaison.

In addition, the Company advises that Dr. Julian Stephens has resigned as a non-executive director of the Company. Prior to Fergus’ appointment, Julian was the “Competent Person” sign-off for Globe pursuant to the JORC Code.

The Company would like to thank Dr. Stephens for his enormous contribution to the Company, in particular for his many years of service as Exploration Manager, and more recently as a non-executive Director.

About Globe Metals & Mining

Globe is an African-focused resource company, specialising in rare metals such as niobium, tantalum and rare earths, as well as other commodities including fluorite, uranium and zircon. Our main focus is the multi-commodity Kanyika Niobium Project in Malawi, which will produce ferro-niobium, a key additive in sophisticated steels.

Globe also has a number of other projects at an earlier stage of development: it owns 100% of the Machinga Rare Earth Project in southern Malawi, and the Company can earn up to a 90% interest in the Mount Muambe REE – Fluorite Project and the Memba Titanium – Iron Project, both in Mozambique.

Globe’s corporate head office in Perth, Australia is supported by African offices in Lilongwe, Maputo, Tete and Nacala. The Company has been listed on the ASX since December 2005 (Code: GBE).

In April 2011, the Company entered into a strategic partnership with East China Mineral Exploration and Development Bureau (ECE), a Chinese State Owned Enterprise with extensive mining operations in China and overseas. ECE is now the largest shareholder in Globe, and a key partner for Globe's growth ambitions in Africa.
