

## ASX RELEASE

12 March 2014

### Investment Summary

- ASX listed African project resources company (ASX:GBE)
- 100% interest held on projects in Malawi including niobium, graphite and rare earths
- Malawi Kanyika Niobium project in feasibility optimisation

### Directors and Management

Non-Executive Chairperson

**Ms Alice Wong**

Managing Director

**Mr Alistair Stephens**

Executive Director & Deputy CEO

**Ms Shasha Lu**

Non-Executive Director

**Mr Jingbin Tian**

Independent Non-executive Director

**Mr William Hayden**

**Mr Bo Tan**

**Mr Alex Ko**

CFO & Company Secretary

**Ms Kerry Angel**

**FPOS** 469,729,062

**OPTIONS** 10,450,000 (various)

**GBEAQ** 3M Rights expire June 2014

## Kanyika Bulk Sample Update

Globe Metals & Mining (“**Globe**” or “**the Company**”; ASX:GBE) announces that the Kanyika bulk sample has arrived in China for the metallurgical pilot plant programme.

### Highlights

- **The 40-tonne Kanyika bulk sample has been cleared by the Chinese Customs Authority and has arrived at the Guangzhou Research Institute for Non-Ferrous Metals (GZRINM),**
- **Pilot-scale testing is to commence upon completion of confirmatory sample assaying, preparation of testing composites and bench-scale verification tests.**

The Kanyika bulk sample has now arrived at the Guangzhou Research Institute of Non-Ferrous Metallurgy (GZRINM) after having been cleared by the Chinese Customs Authority. The release of the sample from customs was delayed due to Chinese New Year holidays and sample examinations.

Initial confirmatory assays will be undertaken on the bulk sample selected from various domains of mineralisation. A series of bench-scale verification tests will also be undertaken on various samples to confirm plant requirements and conditions prior to the commencement of the pilot plant.

The pilot plant testing schedule is due for completion by the end of June 2014 with the full final report from the institute in the third quarter of 2014.

## **About Globe Metals & Mining**

Globe is currently an African-focused resources company, with a strategy to grow the company's global investment opportunities in the minerals industry.

Globe's Kanyika Niobium Project is located in Malawi, which will produce niobium and tantalum products; key additives in steels and electronics. The Mineral Resource statement substantiates that Kanyika could support a 20 year mine life.

Globe's corporate head office in Perth, Australia is supported by a regional operational office in Lilongwe, Malawi.
