

Video broadcast: Globe corporate update

Globe Metals & Mining (“**Globe**” or “**the Company**”; ASX: GBE) is pleased to present a corporate update via video interview with Mr Mark Sumich, Managing Director.

To watch the video, copy and paste the following URL into your web browser:
<http://www.brrmedia.com/event/95439/popup=true>

Filmed by BRR Media, the interview covers four key themes:

1. Corporate strategy
2. Strategic partnership with East China Mineral Exploration and Development Bureau (ECE)
3. Kanyika definitive feasibility study update
4. Progress at the Mount Muambe REE-Fluorite Project

About Globe Metals & Mining

Globe is an African-focused resource company, specialising in rare metals such as niobium, tantalum and rare earths, as well as other commodities including fluorite, uranium and zircon. Our main focus is the multi-commodity Kanyika Niobium Project in Malawi, which will produce ferro-niobium, a key additive in sophisticated steels.

Globe also has a number of other projects at an earlier stage of development: it is earning up to an 80% interest in the Machinga Rare Earth Project in southern Malawi, and the Company can earn up to a 90% interest in the Mount Muambe REE – Fluorite Project and the Memba Titanium – Iron Project, both in Mozambique.

Globe’s corporate head office in Perth, Australia is supported by African offices in Lilongwe, Maputo, Tete and Nacala. The Company has been listed on the ASX since December 2005 (Code: GBE).

In April 2011, the Company entered into a strategic partnership with East China Mineral Exploration and Development Bureau (ECE), a Chinese State Owned Enterprise with extensive mining operations in China and overseas. ECE is now the largest shareholder in Globe, and a key partner for Globe’s growth ambitions in Africa.
