ASX/Media Announcement

Investor Update Rescheduled

Globe Metals & Mining Limited ("Globe" or "the Company"; ASX: GBE) wishes to advise that the Investor Update announcement to shareholders has been rescheduled to Wednesday 9th March, due to the public holiday in Western Australia on Monday 7th, and a delay in senior executives returning from Malawi.

About Globe Metals & Mining

Globe is an African-focused resource company. Its main focus is the multi-commodity (niobium, uranium, tantalum and zircon) Kanyika Niobium Project in central Malawi. A Bankable Feasibility Study was commissioned in August 2009 and production is planned to commence in 2013 at a rate of 3,000tpa niobium metal, principally in the form of ferro-niobium.

Globe also has a number of other projects at an earlier stage of development: it is earning up to an 80% interest in the Machinga Rare Earth Project in southern Malawi from Resource Star Limited (ASX: RSL), and the Company can earn up to a 90% interest in the Mount Muambe Fluorite-HREO Project in Mozambique. Initial drill programs on both projects were undertaken in 2010.

Globe manages its projects from its regional exploration office in Lilongwe, the capital of Malawi. The Company has been listed on the ASX since December 2005 (ASX: GBE), and has its corporate head office in Perth, Australia.
